STRESS INCREASED SUGAR PRODUCTION

WILL UP OUTPUT -- Berlin, Taegliche Rundschau, 26 Sep 51

The Zeitz people-owned sugar factory plans to increase its gross production by 15.36 percent over last year's. This increase is to accompany a 3.4-percent lowering of production costs.

To achieve these goals, the plant is now being mechanized. An automatic feeder device for conveying the beets to the extracting apparatus has already been installed, and three new pulp presses will be added to speed the flow of production.

Work brigades and competitions are to be introduced at the plant for the purpose of increasing individual production. Of the 700 workers who will participate in the competition, 50 percent will be women. To facilitate conditions for the latter, a model industrial kindergarten has been set up.

The factory has also entered a complex competition with the Erfurt, Halle, and Dresden Railroad Directorates to decrease the loading and unloading time for freight cars.
